

HOW YOU CAN HELP SEA TURTLES

**YOU MADE A
DIFFERENCE**

TURN OFF YOUR LIGHTS

Lights that can be seen from a nesting beach can deter females from crawling ashore and draw hatchlings away from the water and off the beach into danger.

FILL IN BEACH HOLES

Sea turtles can get stuck in them as they travel the beach

REMOVE YOUR BEACH ITEMS

Beach chairs, toys and trash can entangle sea turtles and block them from getting to the water.

AMI Turtle Watch & Shorebird Monitoring

If you find a turtle in trouble,
call with the exact location.
